May 12, 2015

Dear A. Curtis and Linda,

Spring is a great time to get outside and enjoy all that the watershed has to offer. May marks the end of WPWA's membership year. Renew your membership today so that you continue receiving preferred program registration and discounts, exclusive access to WPWA's facilities and fleet of boats, reserved parking, and much more, without interruption. Your contribution is vital toward supporting all the efforts we make together to keep this watershed clean and healthy.

Your ongoing membership support also funds the majority of our operational expenses (staff, electricity, heat, phones, etc). While we strive to keep these costs as low as possible, each year costs outside of our control increase and your membership dues make a difference. This year we ask that you consider these ever rising costs when selecting your membership giving level.

Your voice was heard in Washington D.C. through the passage of the Wood Pawcatuck Watershed Protection Act in late 2014. This law will provide WPWA access to future federal funding to further protect the natural resources of your watershed. In the meantime, only your contributions can support our operational expenses.

Last year your steadfast membership support made history! For the first time in hundreds of years, fish are migrating from the Atlantic Ocean to Worden Pond in South Kingstown. Imagine what we will accomplish together this year!

Please join us Saturday May 30th from 1-4 pm for our Annual Meeting Open House. Bring your friends and enjoy a raptor demonstration, kayaking, fishing, our meeting, and much more... all free! This is a great way to connect with all that our beautiful campus on the Wood River has to offer.
