Mission Statement

*To preserve and protect
the lands and waters
of the Wood-Pawcatuck
watershed for natural
and human communities.*

May 12, 2015

Dear A & B Oil, Inc.,

Spring is a great time to get outside and enjoy all that the watershed has to offer. May marks the end of WPWA's membership year and we've noticed that you did not renew last year. We hope this was a simple oversight and that you will reactivate your membership today to receive preferred program registration and discounts, exclusive access to WPWA's facilities and fleet of boats, reserved parking, and much more. Your contribution is vital toward supporting all the efforts we make together to keep this watershed clean and healthy.

Your membership support also funds the majority of our operational expenses (staff, electricity, heat, phones, etc). While we strive to keep these costs as low as possible, your membership support does make a big difference.

In your absence, our voice was heard in Washington D.C. through the passage of the Wood Pawcatuck Watershed Protection Act in late 2014. This law will provide WPWA access to future federal funding to further protect the natural resources of your watershed. In the meantime, only your contributions can support our operational expenses.

Last year WPWA made history! For the first time in hundreds of years, fish are migrating from the Atlantic Ocean to Worden Pond in South Kingstown. Imagine what we can accomplish together this year!

Please join us Saturday May 30th from 1-4 pm for our Annual Meeting Open House. Bring your friends and enjoy a raptor demonstration, kayaking, fishing, a short business meeting, and much more... all free! This is a great way to connect with all that our beautiful campus on the Wood River has to offer.
