

**Ian Willets**

General Manager; The Malted Barley

Ian manages the day-to-day operations at The Malted Barley, an anchor business in downtown Westerly located directly on the Pawcatuck River. Ian is an avid fly fisherman, hockey player, and is very familiar with the watershed and its charms as a trout fishing resource.

Ian has good organizational skills, is personable and knowledgeable about the downtown business scene. He attended Elmira College and earned a BS in Marketing. As a fly fisher he will bring that context to board thinking, and will be able to contribute to new approaches to working with businesses re: business member campaign. Ian will be an obvious asset in developing further the relationship with The Malted Barley and WPWAs interest in having them host sponsorship events as fund-raisers.
